

S-SERIES

S5 Disc SRAM RED eTap AXS
Black/Graphite/White

The S5 Disc was made for the uncompromising, unapologetic rider who craves road-blurring speed. This model is the evolution of system thinking. Cervelo engineers set out to develop the next iteration of the S series recognizing that it's survival of the fastest in the peloton and nothing but the stiffest, most responsive, integrated race machine will do. The S5 Disc rider need never look back.
